

Taha Hassan Tariq

Full Stack Developer | .NET · React · Node.js · Cloud

tahahassan672@gmail.com • +92-332-4304544 • Lahore, PK • [linkedin.com/in/Taha-Hassan](https://www.linkedin.com/in/Taha-Hassan) • github.com/Taha-Hassan

PROFESSIONAL SUMMARY

Software Developer with **3+ years of professional experience** specializing in high-performance C# development and end-to-end system architecture. Expert in translating complex real-time requirements into scalable backend logic and responsive UIs. Proven track record in **Unity/C# systems** now focused on the **ASP.NET Core and React ecosystem**, leveraging a strong foundation in **Computer Science from FAST NUCES** to build production-ready web applications.

PROFESSIONAL EXPERIENCE

FRAG Games — Lahore, PK

June 2023 – Present

Game Developer (Full-Stack Scope)

- Delivered full-lifecycle systems for WebGL and Mobile Titles, managing both client-side UI/UX and cloud-based server logic.
- Developed complex UI component libraries and reactive state management systems, directly applicable to React/Modern Frontend architecture.
- Implemented server-side player authentication, session management, leaderboards, and data persistence via **PlayFab** — equivalent to enterprise-level REST API development.
- Engineered real-time multiplayer with **Photon Fusion** and **GetStream** chat integration; designed serialization contracts using Protobuf and JSON.
- Participated in agile sprint planning, PR reviews, and cross-functional delivery with designers, artists, and back-end engineers.

GAPER.IO — Lahore, PK

July 2022 – May 2023

Junior Developer

- Contributed to multi-role product development, focusing on feature specifications and QA for production releases.
- Established a foundation in full-lifecycle ownership, from initial design concepts to deployment.

PROJECTS & PORTFOLIO

- Personal Full-Stack Projects** — Building React + ASP.NET Core / Node.js applications to formalize web-specific full-stack skills.
- Antara – Raiders and Royales** — Arabian themed mobile strategy game (clash of clans-style) full feature implementation and multiplayer integration.
- Carrot (Social App)** — Designed interactive UI screens, developed gameplay systems and integrated real-time user data synchronization and authentication flows.
- Elowyn** — Card game with PvP and PvAI modes.

SKILLS & TOOLS

Frontend	React (learning), Typescript/JavaScript, HTML5, CSS3
Backend	C# / .NET (Expert), Node.js + Express (learning), REST APIs, WebSockets
Networking	Photon Fusion, Socket Programming, Protobuf, GetStream

Cloud & Auth	PlayDab, FBOMB — authentication flows, session management, cloud storage
Databases	PlayFab, SQL Server
DevOps / Tools	Git/GitHub, Visual Studio, Rider, VS Code, Asana, Agile/Scrum

EDUCATION

National University of Computer and Emerging Sciences (NUCES-FAST) *Aug 2019 – Jun 2023*

Bachelor of Science – Computer Science

HONOURS & AWARDS

- 1st Place — HighQ'2022 IQ Competition, Geek Week
- Winner — Zameen.com Programming Competition (Talent Hunt)
